

Hosted by

### Autumn Harvest Farm to Table

Join us for our season's second Farm to Table dinner at at Five Fridges Farm. As the harvest comes in we would like to invite you to this honoring of our first seasons harvest and programs. The evening's dinner will feature some of the most creative and delicious food prepared by our culinary partners. Our gardens will provide many of the local ingredients sourced for our chefs' original culinary creations. Our featured autum equinox culinary partners Old Major, Scratch Burrito and Thistle & Mint

### Culinary Connections

With a commitment to our Frontline Farming vision of organic, local produce available to all our communities, our culinary partners stand with us in ensuring we continually focus on our vision and serve our mission. Please visit them online or in person.

Thistle & Mint

# Dinner **§ 125**

Proceeds from the Farm to Table dinner will support our Healing Foods Program and Farmer Educational Series.

Tickets to The Five Elements Farm to Table Dinner can be purchased online at FrontlineFarming.org/farm-to-table-series

### Healing Foods Program

More than a quarter of the produce grown on all our farms is donated to social service organizations through our Healing Foods Program. Some of the organizations we work with include Project Angel Heart, SafeHouse Denver, and Family Tree. In partnership with Denver Health, we identify twenty individuals dealing with extreme or terminal illnesses and deliver a weekly package of fresh produce to their doors.

### Farmer Education Program

Monthly class series are offered at our various sites with a sliding scale payment option. No one is turned away for payment concerns. From adult learning to children's programming, classes follow relevant gardening topics with the seasons. Ranging from beekeeping to backyard chickens, to cover crops for your neighborhood garden, our educational series support local farming interests and sustainability.

# SPONORSHIP LEVELS

We invite you to partner with us as we host a special five-course dinning experience. Using our produce we will create 5 courses aligned with the 5 elements of Earth, Water, Fire, Wood and Metal for an evening of culinary delights paired with libations.
